## Asphalt Cleaning Agent

X-IT Asphalt Cleaning Agent is a revolutionary formula that is: **non-toxic, non-hazardous, and non-corrosive.**

X-IT Asphalt Cleaning Agent is a patent pending formula that outperforms diesel fuel for removing asphalt, tar, and oil from paving tools, truck beds, spreaders, asphalt laboratory equipment, manhole covers, and all other surfaces that need to be free from build-up. Designed with worker safety issues and environmental concerns in mind, this formula safely and effectively dissolves soil build-up on all solid surfaces (rubber, plastic\*, metal, painted\*\* or unpainted).

This readily biodegradable asphalt remover contains no volatile compounds (VOCs) (according to EPA Method 8260B) such as citrus-based d-Limonene. X-IT Asphalt Cleaning Agent ingredients are not listed as ozone depleting chemicals and are not on the nation's most stringent air quality proposition, California Prop 65. None of the chemicals used in X-IT Asphalt Cleaning Agent are subject to the U.S. EPA Emergency Planning and Community Right-To-Know Act (EPCRA), the Clean Air Act Section 112 (r) as amended, or in SARA III §302 and §313 listings of toxins. In fact, some of the X-IT Asphalt Cleaning Agent ingredients are qualified as food additives by the U.S. FDA.

### USAGE INSTRUCTIONS

Apply by spray. Allow X-IT Asphalt Cleaning Agent to dwell on surface for 1–3 minutes, lightly scrub surface (if necessary), and rinse with water.

### PHYSICAL & CHEMICAL PROPERTIES

Solubility in Water . . . . .	Dispersable
Odor . . . . .	Very Mild
Appearance . . . . .	Clear White Liquid
pH of 10% aqueous solution . . . . .	4.7 - 5.7
Flash Point . . . . .	> 350° F***
Biodegradability . . . . .	Readily Biodegradable
Corrosive . . . . .	No
Specific Gravity . . . . .	0.982
V.O.C. (EPA Method 8260B) . . . . .	0.0%

TESTED SAFE ON	PRODUCT FEATURES
Aluminum	Biodegradable
Cadmium	Non-Toxic
Titanium	Low Flammability
Stainless Steel	Non-Hazardous
Brass/Copper	Non-Corrosive
Acrylics	Non-Ozone Depleting
Plastics and Rubber**	No Offensive Odor
Concrete	Free of Phenols, Phosphates, Heavy Metals

NOTE: Do not allow X-IT Asphalt Cleaning Agent to sit or pool on asphalt-paved surfaces.

\*Test on PVC and PET prior to application.

\*\*Test on a small hidden area of the painted surface you are preparing to clean prior to application.

\*\*\*Low flammability makes it safe for outdoor applications.

### SAFETY & WARNING

Review Material Safety Data Sheet for appropriate health and safety warnings before use.

Material Safety Data Sheets are available from Pantheon Chemical by visiting [www.pantheonchemical.com](http://www.pantheonchemical.com) or calling 888.608.7888.

**Skin:** Avoid prolonged or repeated skin contact with concentrate as it may dry skin. Wash area with soap and water after handling.

**Eyes:** Flush eyes with large amounts of water. If irritation persists, seek medical assistance.

**Ingestion:** Drink plenty of water or fruit juice. Do not induce vomiting. Seek medical assistance.

**Spill response:** Flush with water. Mop up remaining liquid and dispose of in accordance with federal, state or local regulations.

**Storage:** Will freeze in temperatures below 21° F (-6.11° C). Do not store in temperatures above 120° F (49° C).

### WASTE TREATMENT

There are no federal regulations restricting the disposal of X-IT Asphalt Cleaning Agent into municipal wastewater systems. However, local regulations imposed by a state or municipality may regulate specific discharges, BOD and/or COD limits.

All contaminants should be considered on an individual basis. Each application is unique in its potential for contaminants. If there is sufficient potential for contamination that may be regulated by a government agency, test a sample for the suspected contaminants prior to disposal.

Please follow all federal, state or local regulations regarding the treatment of waste.
